

WE TRY HARD FOR THE FITNESS OF YOUR GUESTS
Capitol has been performing this philosophy in
the hotel market for the last 25 years.

This simply means that we work to define the strategic choice of product and image that satisfies the discerning new guest needs. In particular, the last 15 years have seen important changes in the hotel market where "luxury hotel" has come to mean more than a perception or image but the embodiment of quality in its range of products, the service provided, the hotel's environment and the warmth of welcome each individual guest receives. These factors all contribute to attract the right target audience. Our goal is to support our customers to achieve plans by offering specific tailor made products. We take full responsibility for design, choice of materials and added value like the "details" which make a single product unique and exclusive. Our products are manufactured by a selected group of qualified artisans in the processing of leather, metal, wood, acrylic and glass. Their skills have been handed down through generations to support each product idea and represent our own patrimony. We are "guest" too when we go travelling and visit hotels all over the world. It's actually when we are "far from home" that we are inspired by our experiences, compare and value choices and often we catch new ideas both as to products and services that we can introduce to our range of products/activity.

With many years of experience, Capitol has become a tailor, cutting "your style" to measure. We could never be either a company of "me too" products or a company submitting you huge and heavy catalogues. Our ideas keep growing and developing, simultaneously as we plan with you.

WE TRY HARDER TO ENSURE AN EXCEPTIONAL EXPERIENCE FOR YOUR GUESTS.

WE TRY HARD FOR THE FITNESS OF YOUR GUESTS
Capitol persegue questa filosofia di lavoro nel
mercato alberghiero da 25 anni.

Ciò significa che lavoriamo alla definizione di scelte strategiche, di prodotto e di immagine che soddisfino le aspettative dei nuovi ospiti.

Negli ultimi 15 anni si è verificata una profonda evoluzione nell'hotellerie di alto livello, in particolare nel posizionamento del prodotto-hotel, nella definizione dell'aspetto qualità, nell'immagine e nell'offerta dei servizi in grado di catturare un ben definito target di consumatore-ospite. Da parte nostra si è data concretezza a queste scelte realizzando prodotti ad hoc e diversi per ogni cliente. Siamo responsabili del design, della scelta dei materiali e del valore aggiunto, inteso come "i dettagli" che rendono un prodotto unico e irripetibile. Facciamo realizzare i prodotti da un gruppo selezionato di artigiani qualificati nella lavorazione della pelle, del metallo, del legno, dell'acrilico e del vetro. Essi rappresentano il nostro patrimonio assieme alle nostre idee. Siamo noi stessi degli "ospiti" quando viaggiamo e visitiamo hotels in ogni parte del mondo. È quando siamo "fuori casa" che siamo in grado di fare dei confronti diretti con le nostre scelte e molto spesso catturiamo nuove idee sia di prodotto che di servizi.

La Capitol, attraverso questa lunga esperienza è diventata un sarto che taglia su misura il "Vostro Stile". Non potremo mai essere un'azienda "me too products" e neanche quella che propone enormi e pesanti cataloghi. Le nostre idee camminano con noi, si evolvono in continuazione e si materializzano nel momento stesso della pianificazione del progetto.

WE TRY HARDER TO ENSURE AN EXCEPTIONAL EXPERIENCE FOR YOUR GUESTS.
